TRANSLOAD AND DISTRIBUTION SERVICES

31 strategically located facilities

We can do it.

Your supply chain has many working parts and CN's job doesn't stop at rail. We go the extra mile to offer our customers value-added services to help you reach your target market. We can handle liquid through our CargoFlo service, and all other bulk commodities through our network of warehouse and distribution centers. With capabilities for shipping, transloading, stuffing and storing a diverse range of commodities, we truly mean it when we say "We can do it."

The CN transload Advantage

From truck to rail or rail to truck - get the economy of long-distance rail transportation with the flexibility of short-haul truck delivery.

- Quick and easy access to major North American markets
- Direct connection to CN's extensive rail network for faster transit times
- Specially engineered equipment to meet customers' needs
- Efficient scheduled operations with automated EDI transactions
- Comprehensive management system for total cargo traceability
