Name: LINCOLN TRANSLOAD*
City: LINCOLN
State: IL
Country: US
Include Locations within Switch Limits: No

PLEASE NOTE: Some CIF numbers do not have any active SCRS records associated to them. This means one of two things:

- Either the customer location is not rail served and therefore it is accurate there are no associated SCRS records, or
- The location is rail served, and simply needs to have a SCRS record added.

Results (2 Records)

CIF Number	CIF Customer Name	Address City, State, Zip	SCAC	FSAC	Serving Carrier Details Switch Status	Rail Station
A00147134-0000	LINCOLN TRANSLOAD & PROCESSING LLC	1200 N LOGAN ST LINCOLN, IL, 62656	UP	57100	Local	ATHOL, IL

Looking for transload options in a particular area to assist with your rail shipments? Please click [here](#) to find a transload facility using the Loup Logistics Facility Search tool.

This information reflects Serving Carrier Reciprocal Switch (SCRS) information from Railinc that is currently available to UP. It is provided as a matter of convenience. In the event of a discrepancy between this information and the information published in a carrier's reciprocal switching publication, the carrier's reciprocal switching publication will take precedence. As a matter of information, not all customer locations are directly accessible by rail. Therefore, not all customers will have SCRS information. Those customers that are directly served by rail and not listed should contact the appropriate serving carrier(s) and request the information be provided to Railinc. To view UP's Reciprocal Switching Circular, click [here](#).
